Camtasia Studio 8	Opera Browser		-	Q cmd serial number	command >				Second
-				Search					

Step 2: Open the command prompt and type below command.

Step 3: after running this command, you'll get a number. If you don't get a number, your wmic is corrupted.

(If Your WMIC is corrupted; follow the below-given steps.)

Step 4: Download the WMIC by following the below link.

Link: https://fileshare.mkcl.org/index.php/s/R27HDscgjHSTzaK

After downloaded the wmic repair exe, right click, and run as admin administrator. It will take some time to repair.

Then verify whether the serial number are displayed or not. If serial number are displayed, then issue will get Resolved.
