

Learner Attendance System

User manual

Prerequisites:

How to Install Learner Attendance System:

For this, you need to download the Learner attendance system from your SOLAR login

Login to the SOLAR. Go to downloads > Software/utilities > Learner attendance system

- *Once the zip file is downloaded, extract the file*
- *Copy and paste the extracted zip file in your local disk storage.*
- *Go to the C drive (Local disk C) > Program files > MKCL > BizClient*
- *(C:\Program Files (x86)\MKCL\BizClient 8.0)*

Go and the learner attendance system folder in the Biz Client folder

How to Install the Biometric device drivers into your device.

Type the "<device name> drivers" into the search engine. Install the drivers of the device being used.

Login into the Biz Client

MKCL's BizClient® 8.0

Note : Username and password are case sensitive

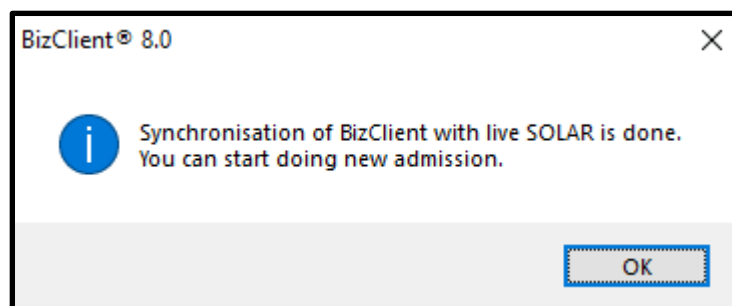

Remember me

BizClient Version : 8.0.8129.30152 [Version History](#)  Copyright 2002-2020 @ Maharashtra Knowledge Corporation Ltd.

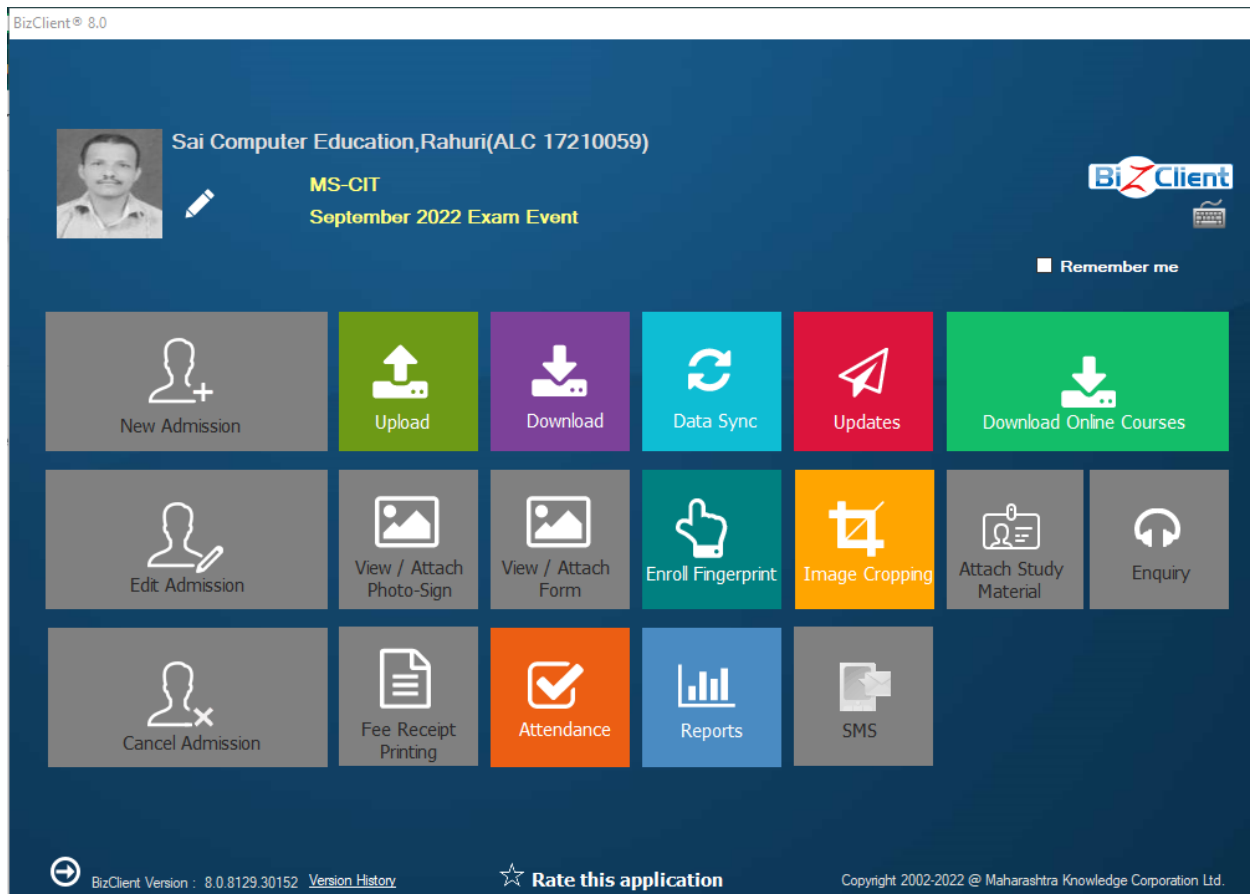

Click on OK to continue.

Wait till the application loads. The following dialog box appears. Click on okay.

The application opens as shown below

How To Enroll Learner Fingerprint Data

Step 1: First Download Learner Data from Bizclient.

- First Click on Data Sync to sync Bizclient with SOLAR
- Click on Download.
- Select Learner Data and Click on download.
- Once the Learner data is downloaded, go to main screen and Click on Enroll fingerprint.
- Select your Biometric device.

Step 2: Enroll the fingerprint data

- After enroll, upload the data on SOLAR
- Close bizclient after enrolling the learner finger print data
- Open the learner attendance system
- Start attendance.

For Employee attendance

Sync the data,

Enroll the employee biometric

Mark the attendance from the learner management system.

Click on the device

The screenshot displays the BizClient 8.0 interface. At the top left, the text 'BizClient © 8.0' is visible. The main header area includes a user profile picture, the name 'Sai Computer Education, Rahuri (ALC 17210059)', and a dropdown menu currently set to 'MS-CIT'. Below this, there is another dropdown menu showing 'September 2022 Exam Event' and an 'OK' button. The 'BizClient' logo is in the top right corner, along with a 'Remember me' checkbox.

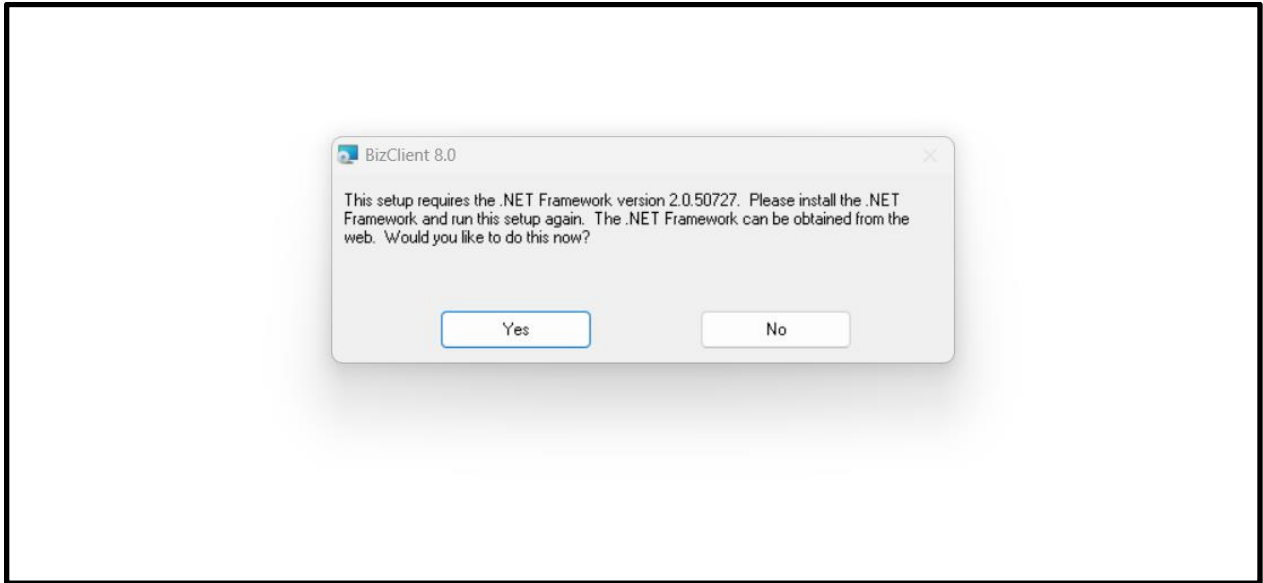

The main content area is a grid of functional buttons: 'New Admission', 'Edit Admission', 'Cancel Admission', 'View / Attach Photo-Sign', 'View / Attach Form', 'Enroll Fingerprint', 'Image Cropping', 'Download Online Courses', 'Attach Study Material', and 'Enquiry'. The 'Attendance' button is highlighted in orange.

A 'Fingerprint Device' dialog box is overlaid on the 'Enroll Fingerprint' button. It contains the text 'Please select one of the following device to continue:-' and two radio button options: 'MFS100' and 'Nitgen Hamster DX HFDU06'. The 'Nitgen Hamster DX HFDU06' option is selected. The dialog box has 'OK' and 'Close' buttons at the bottom.

At the bottom of the interface, there is a footer with a refresh icon, the text 'BizClient Version : 8.0.8129.30152 Version History', a star icon with the text 'Rate this application', and the copyright notice 'Copyright 2002-2022 @ Maharashtra Knowledge Corporation Ltd.'

Frequently Asked Questions

Issue #01:

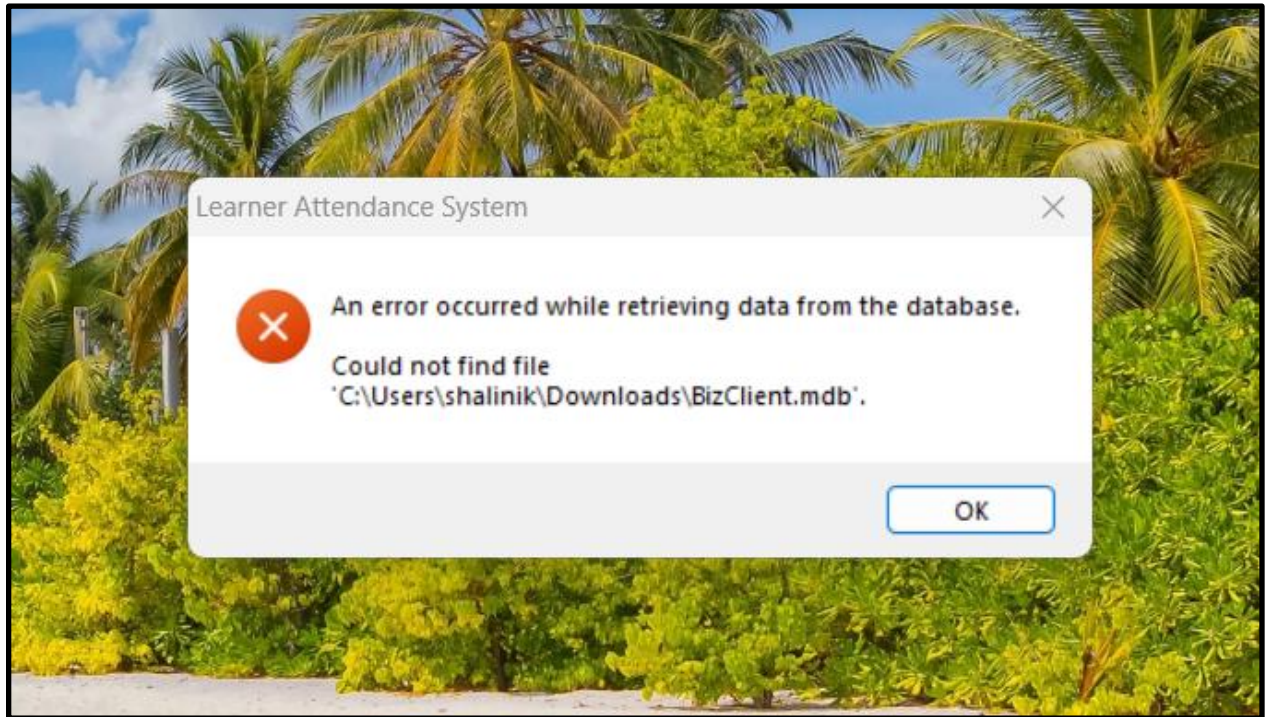

Solution: The installation of .NET Framework Version 2.7 is required on your Device.

See: [How to Install Required .NET Framework](#)

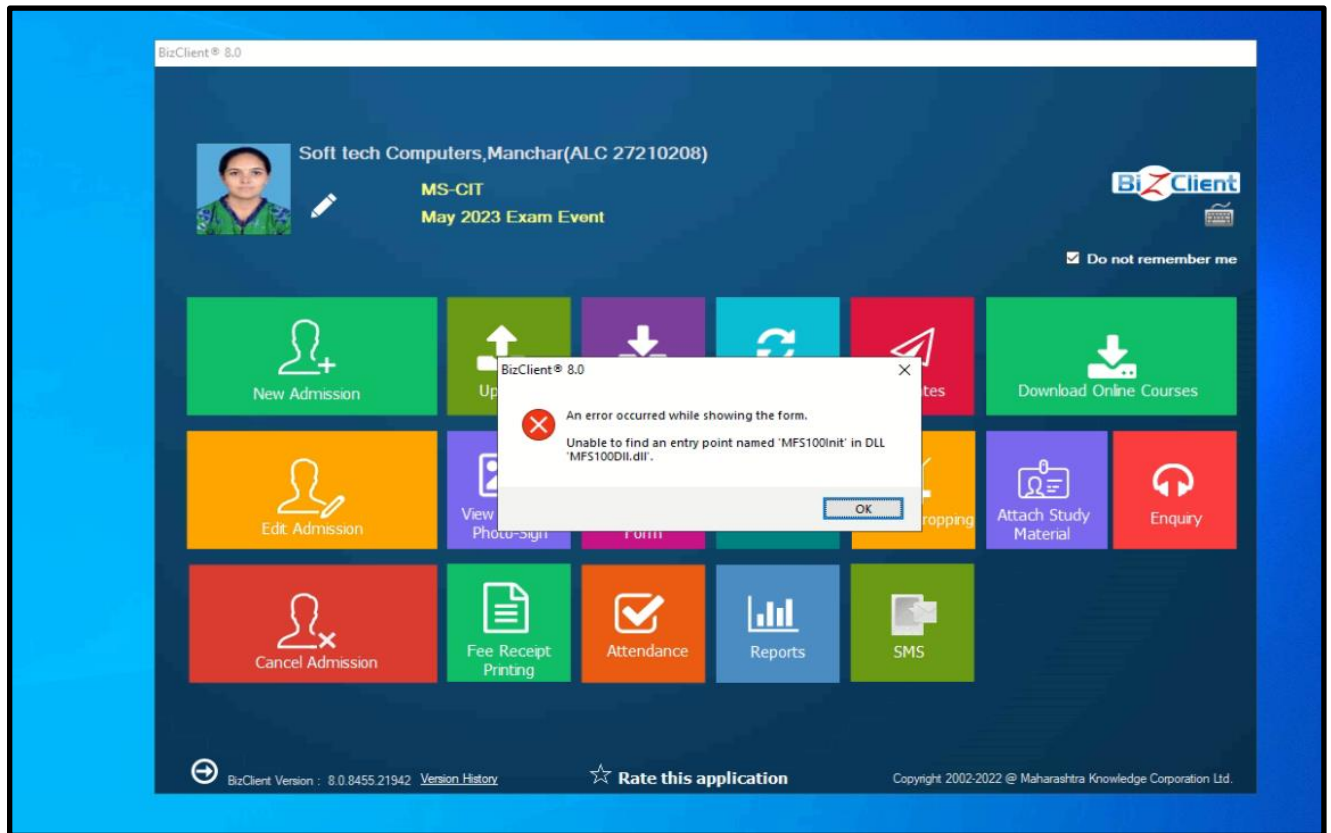

Continue with the BizClient Installation.

Issue #02

The Learner Attendance System needs to be in the the Local Disk Folder (C Drive)
See: [How to Install Learner Attendance System](#)

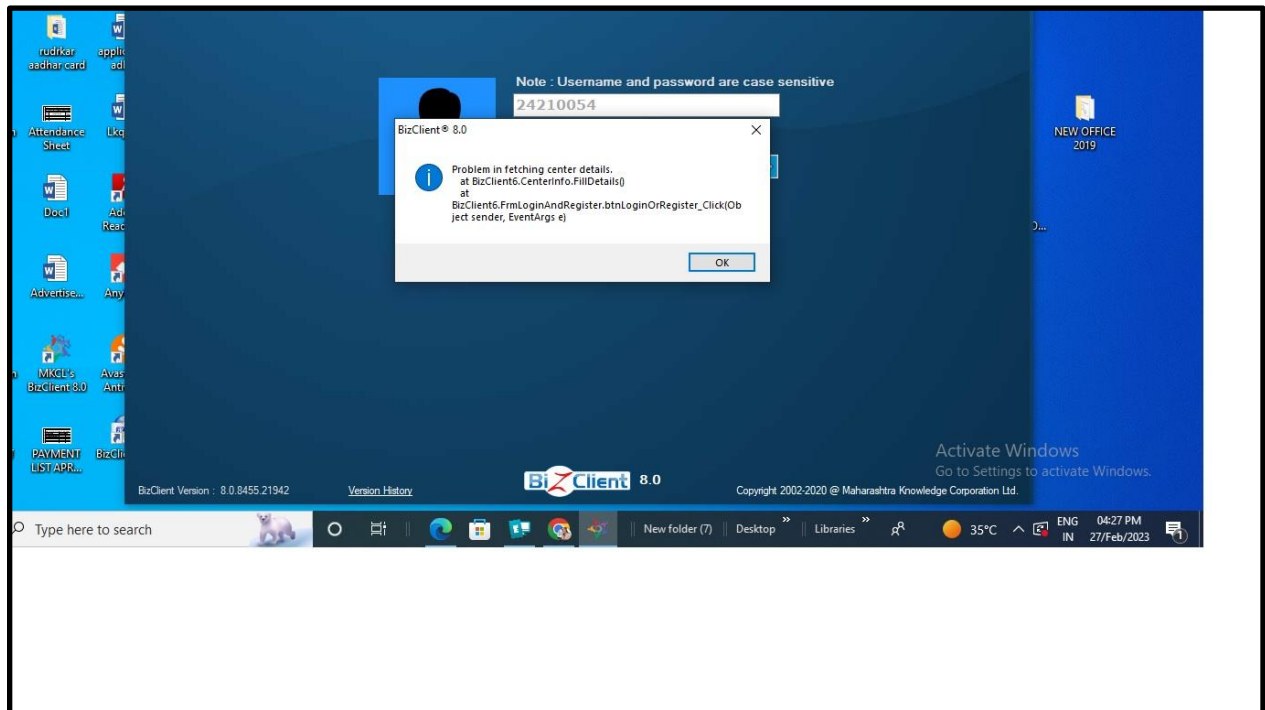

Issue #03

Solution:

This issue is due to driver version mismatch in Mantra device and Bizclient. Go to C drive > Mantra > Drivers, Copy all the dlls from the mantra folder and Paste in MKCL > Bizclient Folder in C drive.

Issue #04

Solution:

This issue is because BizClient was not opened with Run as Administrator.

Right click on the BizClient and select "Run as administrator".

Also see: [How to Always Run BizClient as Administrator.](#)

Issue #05

Solution:

This issue is because required MS Access Drivers are not installed into the system
Google MS Access Drivers and Install the same
